

Proposed Extension at Brentwood School and College

TRAFFORD
COUNCIL

Why do we need to expand?

Trafford Council has a duty to provide school places for every child resident within the borough. Since 2010, this duty has been met by expanding a number of Primary Schools across the borough to meet local demand. In recent years the demand has grown within the Secondary and Special School sector, therefore, Trafford Council are now proposing the physical expansion of Brentwood School to move the admission number from 15 to 25. There is no proposed change to Brentwood Community College which also occupies the same site.

The school is centrally placed within the Sale area. The number of students has been increasing following its relocation from Timperley in 2016. Remodelling spaces within the existing school has enabled these students to be accommodated, but at the expense of specialist classrooms. There is now a need to add 8 further classrooms, re-provide the specialist spaces and associated staff and WC facilities. The school's site has the capacity to accommodate additional buildings which will give it the flexibility to cater for the individual needs of each student.

The proposed expansion of Brentwood School proposes to connect two corridors at the back of the site. This will require re-configuration of the existing cycle track, however, it doesn't affect the playing field or MUGA facility.
